

Principal's Annual report

Good Morning Ladies and Gentlemen:-

I feel a sense of great elation in having amid us our Honourable Chief Guest Smt. Kamlesh kumari MLA Bhoranj constituency, member of School management committee , distinguished guests, Panchayat Pradhans, all the staff members of Diamond International Public School and respected parents. First is my proud privilege to welcome all present here on second annual function of Diamond International Public School.

I am grateful to you all that you have spared time to grace this grand occasion. Please accept my sincere welcome and regards.

Diamond International Public School was established in April 2017 providing its students a child centered quality education on modern lines under the leadership of progressive and dynamic personalities of SMC Chairman Mr. Sunil Kumar Thakur, Manager Mr. Anil Kumar Thakur & Cashier Mr. Anil Kumar Swami. Today we are celebrating its 2nd Annual Function on huge emphasis on the Educational Environment in supporting, caring and protecting way with positive atmosphere.

We feel greatly honoured with your presence. I can assure you that your presence here on the shining morning is a source of great motivation and encouragement to the entire

school. How swiftly and unnoticed time flies one more year has been added to the glorious saga of DIPS which is the newest and the youngest member of the Diamond family.

In the brief two years of its existence , DIPS has established itself as a premier school of learning providing internationally quality of education. I consider it my proud privilege to be associated with such a prestigious institution and present a report on the school happening for the academic year 2018-19. But before I do that, I would like to dwell briefly on the changing time and the redical change needed in the field of education. We are living in the time where the pace of event is fast indeed ,so fast, in fact that today's latest became absolute tomorrow. Life is a process of constant changes and all healthy communities built for the future.

For the development of technological spirit among the students school is having a well equipped computer lab and teachers are using high order thinking skills technique to teach the topic in depth and to make the concept clear. School have well equipped composite lab, Maths lab, Art & Craft Lab, Music Lab and Dance lab.

In educating today's youth we cannot afford to lose sight of fact that we must teach them to grapple with the problem of their generation , their society and their world. Yesterday's solution to today's problems would not suffice. The youth of today need to be readied for the global stage

and compete with the best brain in the world. This is what we aim at doing at DIPS. We wish to make education at our school, a total experiences where students slog for 'A' as at academic participation in all school activities with great enthusiasm and yet actively involve themselves with community service project .

We have our dreams, ambitions and aspirations and to convert these into realities of our goal. We know that we all including parents have to work very hard for it but DIPS is raring to go. " Ever forward and never to look back".

Strength:-

At present the strength of school is 255 and school is likely to be affiliated to CBSE New Delhi vide their Registration No. SL-01788-1819 upto 10th class.

Celebrations Competitions and Achievements:-

Our school students considering their social and moral responsibilities by celebrating various days like Environment Day, International Yoga day, Sports Day, Independence Day, Janmashtmi, Teacher's Day, Hindi Diwas, Children's Day, Lohri Celebration, Basant Panchmi, International Voters Day, Mother's Day, Christmas Day. Many other celebrations are taking place as per the directions of CBSE.

Also students of this school participated first time in Children Science Congress Junior in which we got second position at block level and fourth position at district level. At school level students participated in various competitions:- Inter House Quiz competitions based on Science , Mathematics, Social Sc, Inter class Sports competitions, Inter class poster making competitions based on Clean and Green Environment, Inter House Mimicry Competition, Inter Class Solo Dance Competition, Inter Class Story Telling Competition, Inter Class Poem Recitation Competition, Inter Class Combine Olympiad, Inter Class Handwriting Competition, Inter House Mehndi and Rangoli Competition, Inter House food Fair.

This very particular year we included competitions for Moms too. Best Mom for Best Handwriting in English, Best Momfor Best Handwriting in Hindi, Best Mom for Best Lunch Box in which Moms participated actively and enthusiastically and we will include many more such competitions with this new session ahead.

Annual Sports meet:-

Physical and mental fitness of the students is ensured through games and sports. For all round development of the personality of a student at educational and physical level inter house sports meet is conducted every year. Time to time Disaster Management drills are given to the students.

Also we have prepared students for Chess and Sudoku for the mental fitness of the students.

Future Plan:-

Now school is planning to start Judo-Karate, Horse Riding, Arobics, kathak classes from upcoming academic session. School is also going to setup a well equipped English Lab. Planning to setup the robotic lab is also under consideration.

Conclusion:-

My report on the school would be incomplete if I did not mention our wonderfull team of teachers who worked with dedication and put in their all out efforts for the welfare and education of their charges. We have total of 17 qualified and experienced teachers who always unhesitatively give their best. At times, I feel that MD Sir make too many demands for the all round development of students from my teachers but they have always responded very positively.

My thanks to the entire team of supporting staff for their 'behind the curtain scene'. They work to keep the environment tidy and presentable. Last but the most important few words to the students. I recall a saying I read sometimes ago, " Every time God sends a child into the world, he is proclaiming that he has not lost hope in man

kind yet “. History of mankind proof that there are always a few good people who have made all the differences and make our world a better place . You are fortunate that you have such a caring parents and you attend a good school endeavour to make yourselves good human beings and make this world of ours a better place than you find it today. That will be the acid test of your privileged education.

At the end I would like to thank you all for bearing with me for so long and now I invite you to enjoy the beautiful cultural programme our children have prepared for you.

May God Bless You All....
